

2ND ANNUAL STUDENT VOICE CHALLENGE

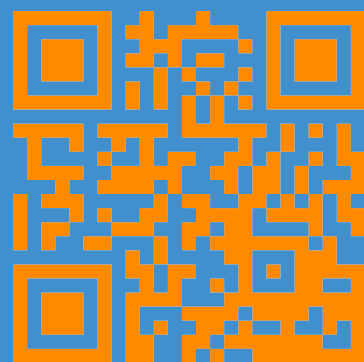

HOW DOES FEEDBACK HELP YOU LEARN?

A STUDENT CHALLENGE | LEVELS/CATEGORIES: ELEMENTARY, SECONDARY, ADULT/VOCATIONAL, CEGEP/UNIVERSITY

We all learn differently.

Sometimes we know what helps us learn better; sometimes we learn strategies that help us learn better.

Research shows that feedback from those around us, teachers, friends, classmates, parents, can be one of the most important ways to develop understanding of how we learn.

Make a video selfie answering a few simple questions and, if we use your video at our annual conference, you'll be entered in a prize drawing for one of two iPad Minis.

Your selfie should include:

- Which subject you were studying
- Some feedback you received and how the feedback helped to support your learning;
- What you think "good" feedback is?
- What makes a good learner a good learner?

Use a webcam, a smartphone, a tablet, anything that records video; post it to youtube, vimeo or share a file with us privately using dropbox, wetransfer, or something similar. (For those under 18, please ask your parents first!)

visit sharelearn.ca for complete requirements & submission guidelines
