

Junior Researcher Position

Application Deadline: June 1, 2023

Position Start Date: July 1st, 2023

Position End Date: June 30th, 2024

Location: mostly teleworking, with some travel to the research sites

Salary: Honorarium of 30 000\$ with travel costs paid separately as per the LCEEQ travel policies.

Reports to: John Ryan, Coordinator, Leadership Committee for English Education in Québec (LCEEQ)

Background:

The COVID-19 pandemic forced the educational community to reconsider our system's educational practices to better meet our students' needs. In Phase 1 of this research, LCEEQ was tasked by the Ministry of Education (MEQ) to identify four areas of concern post-pandemic that would benefit from a change in the current practices.

Phase 2 of this research involves a Research-Practice Partnership (RPP) with members of the English Education Network (EEN) to implement a new research-based practice and measure its impact. The efficacy of the implemented changes should be monitored through change management methods such as *Plan-Do-Study-Act* cycles.

Job duties:

In collaboration with the Principal Researcher (PI):

- coordinate the tasks of research assistants (coding, gathering literature, etc.)
- determine the research methods and design
- plan the onsite professional development
- manage the data, field notes, audio, and video files
- manage information and perform regular reporting and documentation
- maintain and building ongoing relationships with community partners
- complete the deliverables in accordance with the deadlines

Qualifications:

- Currently registered in a Doctor of Philosophy (PhD) or having recently completed a PhD in Education or a related field

Required Skills:

- Experience synthesizing and analyzing data using social science methods, including qualitative analysis
- Familiarity with Implementation Science and PDSA cycles is an asset

- Experience conducting qualitative and community-based research, including semi-structured and/or structured interview processes
- Strong attention to detail and highly proficient with information management systems and protocols.
- Excellent written and oral communication skills in both English and French

To apply: Please upload your CV and Cover Letter [HERE](#). Individuals selected for an interview will be contacted.
